

Product 532376

532376 Active holder for fixed installation. With tilt swivel. Slim design with charger integrated in the holder.

The cables are to be connected inside the dashboard, this gives a discreet, neat installation without cables hanging over the interior. The charging device is integrated in the holder itself, so there is no large charging box on the cable.

12/24 Volt. The product is E-approved. Connect the power cable with a 2 A fuse. 2 A charger. Professional installation recommended.

The holder is attached onto a tilt swivel and can be adjusted in order to avoid light reflection. The holder fits devices both with standard and extended battery. Attach onto ProClip Mounting Platform.

EAN: 7320285323766

Item no 532376 fits:

Honeywell 7800 (For all countries)

INSTALLATION INSTRUCTIONS

1.

2.

3.

4.

Please read all of the instructions and look at the pictures before attaching the holder. Important Note: Route the cable from the holder into the vehicle dashboard and route the power cable from the charger unit to the power supply source in the vehicle and connect as follows: 1. Connect the White wire to a Negative Ground connection of the vehicle or the vehicle chassis. 2. Connect the Red wire to a 12/24 Volt power supply in the vehicle that is controlled by the ignition switch of the vehicle.

1. Loosen the screw in the center of the holder so you can remove the tilt swivel attaching plate on the back.
 2. Place the attaching plate onto the desired position. Screw the attaching plate into place with the enclosed screws.
 3. Place the holder over the attaching plate so the screw fits in the hole in the tilt swivel. Tighten the screw until the holder is firmly in place, but still can be adjusted.
 4. The holder is in place.
