Industrial Mobile Computer

## The Perfect Companion in the Field

Now you can reliably capture and retrieve the critical information needed in the field. Both Cisco® CCX-compatible WLAN and GSM/GPRS/EDGE communications let you upload and download data nearly anywhere. 1D or 2D, RFID, signature capture, digital camera, and massive storage capacity let you document more and maintain company records in a wide range of formats. The bright display supports graphical business and user applications to help you make more intelligent decisions for your customers and your company. GPS-ready, the 9600 can help you locate your customers wherever they are to keep your deliveries and service calls on track and on schedule.

## Your Information Source on the Floor

Your Windows®-based retail applications are stronger than ever. Supported by a powerful processor and graphical display, multiple AIDC capabilities, multi-modal communications (WWAN, WPAN, plus Cisco® CCX V4-compatible WLAN), the 9600 series makes it easier than ever to manage and track products—and even process sales. Whether on the sales floor or in a delivery truck, you can easily and reliably scan and update inventory, take orders, capture signatures, and send replenishment data across the room or around the world.

## Proven Use Cases using CipherLab PDA industrial mobile computers

### Reduce Asset Management Burden

Wens Food Group  
Livestock Management

Running standard quality auditing software on Windows® CE-based CipherLab industrial mobile computers, Wens Food Group extends their software tools to the field. With Windows®-based CipherLab devices, managers eliminate cumbersome paper-based procedures while accelerating inspections, saving time, and cutting costs.

### Improve Utility Efficiencies

GuiYang Power Company  
Power Services  
Metering and Billing

With Windows® CE-based CipherLab industrial mobile computers, GuiYang Power Company eliminates human errors and accelerates their revenue stream. Using CipherLab devices equipped with RFID, WWAN, *Bluetooth*®, and a magnetic slot reader, remote workers read power meters, connect to the central office, and collect payments on site.

### Accelerate Postal Activities

ECT  
Brazil National Post Office  
Public Service

By deploying thousands of wireless CipherLab devices to its service centers, ECT is able to ensure accuracy in package tracking, accelerate deliveries, and enhance customer service around the country. Wireless communication lets them instantly maintain data accuracy, while shortening busy lines.

## Limitless Applications

CipherLab's SDK enables you to develop enhanced business applications and easily extend your existing programs to the point of work.

Industry-standard third-party applications add even more.

Forge application generators build custom applications unique to your business.

Naurtech CETerm Industrial Browser and Terminal Emulators are SAP-compatible for legacy main-frame integration.

Mirror browsers and terminal emulators extending complex mainframe applications to CipherLab devices.

SOTI Mobicontrol eases the challenges of managing mobile devices in the field remotely.

## Our Most Powerful Industrial Mobile Computer for Field Service and Sales

We've combined all the right technologies into the 9600 with an ergonomic design to help make field and office personnel more productive throughout the day.

### Data Management

The 9600 can read 1D or 2D codes with your choice of linear imager, 2D imager or laser options. With built-in RFID reader/writer, signature capture, VGA touch screen, 2-megapixel digital camera with LED flash, and 29-key or QWERTY keypad, the 9600 series provides multiform data input for maximum efficiency.

### Integrated GPS and Advanced WLAN

Field service and sales now is made simple, anywhere, with built-in quad-band EDGE and integrated GPS. The 9600 series, equipped with CCX V4-compatible Summit® WLAN modules, gives you reliable, advanced wireless communications. If your current network is built on Cisco® wireless communications, you can extend Cisco® features currently used to the 9600 units for a more advanced data capture infrastructure.

### Built Strong

On the sales floor, in the warehouse, or in the field—indoors and outside—the 9600 is designed to stand up to the most extreme environments and toughest working conditions. It's been tested with repeated 1.5-meter drops onto concrete, tumbled 1,000 times from a 100-cm height, exposed to temperatures from -10 to 50°C with up to 95% humidity, and meets IP64 specifications.

### Perfect for Demanding, Enterprise-wide System Solutions

Designed around XScale® technology, Marvell's PXA270 embedded processor, and Windows® embedded CE operating system, the 9600 series delivers high-performance computing power with graphical multimedia, yet is incredibly energy efficient. Its large, on-board 1GB memory with microSDHC slot maximizes flexibility and scalability for enterprise-wide solutions.

FEATURES	BENEFITS
<i>Powerful computing and industry-standard Windows® CE operating system</i>	Deploy a wide range of advanced, graphical applications to energize your business
<i>Field-ready, multi-modal communications, plus GPS</i>	Do business anywhere in real time
<i>Meets strict and tough environmental testing</i>	Reliable operation to keep your business going
<i>CipherLab and Windows® SDKs</i>	Extend your business tools with custom applications

**CIPHERLAB PRODUCTS ARE VALUED WORLDWIDE FOR ENGINEERING EXCELLENCE.**

## Industrial Mobile Computer

	9600	9670	9680	9690
Performance	Operating system	Microsoft® Windows® CE 6.0 Professional R2		
	CPU	Marvell PXA270@ 520 MHz		
	Memory	1GB Flash ROM / 128MB SDRAM		
	Expansion	micro SD slot with SDHC support		
	Operating power	Rechargeable 3.7V 2700 mAh Li-ion battery		
		Adapter: AC 110V / 220V input, DC 5V / 3 A		
	Working hours <sup>1</sup>	12 hours batch mode / 10 hours WLAN mode / 10 hours GSM talk time		
	Backup power	3.7V 80 mAh lithium battery Data retained for 24 hours minimum without main battery		
Alerts	Audio speaker / Buzzer / Vibrator / Tri-color LEDs			
Wireless communication	WLAN 300m line of sight <sup>2</sup>	--	IEEE 802.11 b/g Cisco® CCX V4	--
	WLAN Security	--	EAP, WEP, WPA(PSK,TKIP), WPA2(AES, PSK), 802.1X	--
	WPAN	BT V2.0 + EDR Class 2		
	Bluetooth® profile	FTP, SPP, DUN, HFP/HSP, HID keyboard, PAN, OPP		
	WWAN <sup>3</sup>	--	GSM/GPRS/EDGE Quad-band	
	GPS <sup>4</sup>	GPS SiRFstar III, integrated GPS antenna		
Data capture	Barcode scanning	Linear imager <sup>4</sup> / Laser / 2D imager		
	RFID <sup>4</sup> read/write	13.56 MHz frequency Supported tags: ISO 14443A, ISO 14443B, ISO 15693		
	Digital camera	2 megapixels CMOS with LED flash		
Physical characteristics	Display	3.5" QVGA or VGA, 65k colors, TFT Transflective Touch LCD Sun Light readable		
	Keypad	29 numeric or QWERTY keys LED backlit keys		
	LED	Green, red, blue tri-color		
	Size (LxWxH)	170 × 90 × 38 mm / 6.7 × 3.5 × 1.5 in.		
	Weight	400 g / 14.1 oz. configuration dependent		
User environment	Temperature	operating: -10° to 50°C / 14° to 122°F storage: -20° to 60°C / -4° to 140°F		
	Humidity	5% to 95% non-condensing		
	Impact resistance	Multiple 1.5 m / 5 ft. drops onto concrete, 5 drops/face 1,000 tumbles at 100 cm IP64		
	Electrostatic discharge	±15 kV air discharge / ±8 kV direct discharge		
	Regulatory <sup>5</sup>	BSMI, CE, C-Tick, FCC, IC, MII, NCC, SRMC, CCC		
Development support	CipherLab C++/.NET DLL, 9600 SDK to support Microsoft® Visual Studio 2005, Microsoft® Visual Studio 2008			
Application software	Application Manager, Backup Utility, Reader Configuration Utility, FORGE Batch Application Generator, MIRROR Browser and Terminal Emulator, Naurtech CETerm, SOTI® MobiControl			
Cradles	Charging and communication cradle / Ethernet cradle / Vehicle cradle			
Accessories	4-slot battery charger, vehicle charger, belt holster, protective cover, pistol grip, hand strap, rechargeable battery pack			
Warranty	1 year			

- Working hours for batch and WLAN are based on one standard laser scan per five seconds with backlight on. The working time for GSM mode is based on continuous talking.
- Effective coverage depends on user environment and equipment deployment. It is highly recommended to conduct a site survey before actual deployment.
- The mobile computer has received general telecommunication certification. Please check with your local carrier for the optimum operating efficiency.
- GPS cannot be used with RFID and linear imager scanning due to hardware limitation.
- For countries outside USA, Canada, European Economic Area, Australia, Taiwan, and China, consult your local CipherLab representative.
