

E110

Windows®. Life without Walls™. Getac recommends Windows 7.

FULLY RUGGED 10.1" TABLET

- Large 10.1" sunlight readable HD display with touchscreen
- MIL-STD 810G and IP65 certified
- 64GB solid state drive
- Full magnesium alloy case
- Fan-less design
- Industry's-best 5 year bumper-to-bumper warranty

Sunlight Readable Display.

Built into the E110 is an advanced QuadraClear™ display. Our QuadraClear solution combines proprietary technologies for both screen brightness and anti-reflectivity creating one of the best display solutions for use in direct sunlight.

Built to Survive.

The rugged look of the E110 is no mistake. The E110 was designed to the rigorous MIL-STD 810G and IP65 standards. Inside and out, the E110 provides protection against dirt/dust, water, motion/vibration, temperature and other factors that would severely damage a standard consumer tablet.

LifeSupport™

Configure your E110 with Getac's LifeSupport™ hot swappable battery option and you can extend your working hours allowing you greater productivity in the field.

Go Wireless.

Designed to be mobile, the E110 comes standard with 802.11n WLAN and Bluetooth 4.0 connectivity.

Powerful Performance.

The E110 performs up to 300% faster than the previous generation by combining a new 1.86GHz processor with faster DDR3 memory, improved graphics, and video hardware acceleration.

5 Year Warranty.

The E110 is designed from the inside out to survive drops, shocks, spills, vibration and more. We're confident in our quality and that's why the rugged E110 comes standard with the industry's best 5-Year bumper-to-bumper warranty.

Specification subject to change without notice.

Battery performance will vary based on software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. As with all batteries, maximum capacity decreases with time and use and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.

* For storage and solid state drives, 1GB = 1 billion bytes; actual formatted capacity less.

** Weight varies by configuration and manufacturing process.
