

PROTECTION *for the*
Samsung

GALAXY S III

INSPIRED BY NATURE.

The Samsung GALAXY S III is promising to take over the world. Its minimal and organic design provides an ergonomic and comfortable experience with enhanced usability. Featuring a lightning fast processor, 4.8" HD Super AMOLED display, Android Ice Cream Sandwich OS, 8 MP camera, LED flash and zero shutter lag, this smartphone offers the best of everything. In addition to this feature-rich list, this smartphone includes mobile payment capability, WiFi channel doubling (2x typical bandwidth) and is SAFE (Samsung Approved for Enterprise) rated. Consumers and businesses alike will improve their efficiency with this smartphone. This phone is more than worthy of protection from OtterBox.

PROTECTION FROM HUMAN NATURE.

OtterBox focuses on premium design and ideal form, fit and function for the ultimate smartphone experience. The high quality materials, precision design and fine styling of each individual case ensures reliable performance, high satisfaction and low return rates. To make our cases even better, we subject them to stringent third-party testing and only release a case once it has passed every single test parameter. Galaxy S III customers can choose from the rugged Defender Series case which provides protection against heavy use and random accidents or the stylish and slim Commuter Series that provides tough protection for a highly connected lifestyle.

It's not just a case. It's an OtterBox.

PROTECTION *for the*
Samsung GALAXY S III

CASE CREATION

Designers at OtterBox take a good look at the form, features and shape of the device and use it as the foundation upon which to add their interpretive styling.

COMMUTER^{SERIES}

CASE FEATURES

Incorporating innovative engineering, the case offers intuitive full-functionality of the device while providing great protection — a true marriage of form and function.

DEFENDER SERIES CASE DESIGN

A bold design language was used to accentuate the case's exceptional protective capabilities as well as to improve ergonomics and overall feel of the case. This design approach was considered in all components of the case to give a consistent feel in and out.
