How many labels per cartridge can I print?
Six example graphics of various sizes. (LX Printers)

Below are sample graphics with a table below each showing the number of labels printed from each cartridge for various popular label sizes. These values apply to LX400e / LX800 / LX810e. The graphics represent a range of 40% to 95% ink coverage. You'll notice that ink consumption will vary greatly depending on the coverage percentage and the colors used. As you can see a smartly designed label such as the Coffee, Sunscreen or Wine label can use very little ink *and* look great.

High Quality	Medium Quality	High Quality	Medium Quality
4x2 = 306	4x2 = 404	4x2 = 218	4x2 = 361
4x3* = 208	4x3* = 274	4x3* = 147	4x3* = 245
4x4 = 158	4x4 = 208	4x4 = 111	4x4 = 185
5x4 = 127	5x4 = 167	5x4 = 90	5x4 = 150
6x4 = 106	6x4 = 141	6x4 = 75	6x4 = 126

Notes: *Indicates native aspect ratio for this image. Other sizes were achieved by stretching or shrinking the aspect ratio in the NiceLabel software. All labels printed with Color Cartridge only. Labels with large areas of black graphic or text can be set to use the black cartridge if using an LX810e.
High Quality	Medium Quality
2x4 = 444	2x4 = 808
3x4* = 308	3x4* = 564
4x4 = 235	4x4 = 433
4x5 = 189	4x5 = 352
4x6 = 158	4x6 = 296

High Quality	Medium Quality
2x4 = 393	2x4 = 681
3x4* = 268	3x4* = 468
4x4 = 204	4x4 = 359
4x5 = 165	4x5 = 290
4x6 = 138	4x6 = 243

High Quality	Medium Quality
4x2 = 138	4x2 = 219
4x3* = 92	4x3* = 147
4x4 = 69	4x4 = 111
5x4 = 56	5x4 = 89
6x4 = 46	6x4 = 75

High Quality	Medium Quality
4x2 = 328	4x2 = 564
4x3* = 224	4x3* = 388
4x4 = 169	4x4 = 294
5x4 = 135	5x4 = 237
6x4 = 114	6x4 = 199
