- mPOP White & Silver with barcode reader/scanner
- mPOP Black & Silver
- mPOP Black & Silver with barcode reader/scanner

Key applications

- ✦ Tablet POS
- ✦ Retail
- ✦ Hospitality
- ✦ Salon

For POS at its most elegant, Star's mPOP meets your business needs.

Outstanding connectivity and design, plus intuitive functionality and simple integration are delivered ready to work with your chosen mobile software and card payment system...welcome to a new era for Tablet POS.

Advanced mobile devices and app software have opened up new avenues for retailers. At Star Micronics we've developed the world's first conceptually driven, combined point of purchase cash drawer and printer in response to the need for an easily integrated mobile POS system.

mPOP works with all major mobile operating systems including Apple iOS, Android and Windows, giving retailers the freedom to use the platform that works for them.

▶ SIMPLE & Easy-to-use

JUST one power cable is needed to charge multiple devices, operate scanners, as well as run the printer and cash drawer courtesy of the 2 x 1.5A and 2 x 0.5A USB host ports. An optional iOS Y cable option can provide 2.4A for the iPad Pro. The mPOP LCDs will let you know pairing status as well as any issues such as paper out, whilst Star's Auto-Connect for Apple feature will automatically re-pair Apple devices.

▶ Secure

The mPOP can be attached to a counter using the desk clip provided or with a 3rd party Kensington lock cable system. Any tablet stand can be used with the mPOP. However, the tablet stand provided with Star's POPPack option is attached to a heavy, metal plate and provides peace of mind whilst retaining the ability to separate stand and mPOP for transport at end of day, if required. There is also a more secure under counter mounting option if required.

▶ Reliable 100mm/second printer

With intuitive top loading & easy front feed, the printer uses anti-curl direct thermal receipt paper which does not need ribbons or toner and is readily available. The partial cut guillotine automatically cuts the 58mm wide receipt so it won't drop on the floor. Simple paper loading – just push the front printer panel and press the easy release lever to drop in the paper roll and then print.

▶ Compact cash drawer

A clean, fast drawer release reveals 6 coin holders capable of taking full bank bags of coins and 4 upright note dividers. There is a low cost 8 coin option if required. Higher value notes can be stored securely under the coin inserts and a software lock provides extra security.

You can easily add a 2nd cash drawer under your counter. Just plug the cash drawer cable into the mPOP's versatile range of ports at the base of the unit. Your software or your mPOP may be programmed to open this drawer separately or at the same time as your mPOP.

▶ Software

www.mPOP.com will put you in touch with the latest Mobile POS, Retail and Hospitality software that suits you and works with Star's mPOP.

mPOP accessories & options

In the box at purchase:

- 58mm Thermal Printer & 6 coin/4 note holder cash drawer

- Paper: Thermal – width: 57mm, roll diameter: 50mm, weight: 0.053 – 0.075gsm, core size: 12mm
- CB2002 2nd cash drawer option available in black or white

▶ Hub Connectivity

Star's mPOP features a cash drawer/buzzer connector plus additional USB Host Ports to connect USB peripherals such as Star's SCD222 customer display and a range of 1D and 2D barcode scanners or RFID devices.

This means the mPOP can effectively act as hub, controlling a range of peripherals plus providing connectivity for iOS/Android/Windows tablets and charging for iOS devices.
