- High-Quality Barcode printing
- Standard Dual Interface USB/RS232 Serial
- Swappable interfaces for easy integration
- Space efficient wall and vertical mounts available
- Drivers available for: Windows 9x, 2000, XP, and Linux

The TSP828L sets the standard when it comes to desktop label printing. With the TSP828L, **Star** meets the **high quality**, ease-of-use demands of the entry-level thermal label printer market.

The TSP828L is perfect for all of your printing applications, from **shipping and receiving**, to **healthcare** and **jewelry**. The TSP828L can accommodate various label formats, and widths. The **built-in peeler** will speed you through your print jobs in an instant, and the rear exit liner ensures no worries of hassling with garbage. Print **batch** jobs or **auto-peel** your labels **without overlapping** thanks to the TSP828L's ability to sense when a label is still in the dispenser. When it's time to replace your labels, just drop them in and start printing, no need to feed or wind anymore! All of these features make the TSP828L the only true **clamshell** label printer available.

The TSP828L packs so much **value and performance** into a desktop label printer; you'll wonder why you would choose any other.

TSP828L shown with peeler and cover open
