2D CORDLESS SCANNER

*Productivity Solutions for Small Businesses*

The Wasp WWS450 2D barcode scanner offers fast, efficient barcode scanning. Accurately read 1D and 2D barcodes with the WWS450 aggressive digital imager scan engine.

Simply plug the USB adapter (or optional PS2, RS232) into a PC to rapidly scan barcodes up to 160 feet away from the communication stand using wireless connectivity. Pair the WWS450 with an Android™ or iOS® device, including iPhone®, iPad®, or iPod®, to monitor operations in the field from up to 30' away from the smartphone or tablet device. Barcode data is instantly added to a spreadsheet, document, or database, without time-consuming manual data entries or inaccuracies. Use the added buffer memory to hold up to 256 out of range scans.

The WWS450's ergonomic design allows for multiple 4-foot drops to concrete and is ideal for retailers, post offices, banks, and utility companies. With the included base station, charge the WWS450 from your desktop or easily mount to the wall for added convenience.
