

# FLEXIPOLE TAB

## FLEXIBLE TABLET MOUNTING SOLUTIONS FROM ENS

This elegant solution from ENS gives users flexibility to mount any tablet on to their counter or wall. Decide at the time of installation whether your tablet needs to be in portrait or landscape and simply fit the universal backplate to the tablet using our high bond adhesive pad. The backplate can be attached either directly to the tablet or to a tablet case.

Once the universal backplate is attached, the tablet will click into place on any of our FlexiPole stands allowing full access to the tablet features. Stand options include countertop, compact countertop and wall mount. Each of these can either be quick release allowing users to go mobile easily, or locking for a more secure solution.

Once mounted, the tilt and swivel features of the FlexiPole stands allow the tablet to be easily adjusted for user comfort.

- ✓ Any tablet type/size
- ✓ Mount in portrait or landscape
- ✓ Quick release or locking
- ✓ Counter or wall mounted
- ✓ Automated UV-C disinfection can easily be added

**COUNTERTOP**

TABBO121 (LOCKING)

**COMPACT COUNTERTOP\***  
TAB90121 (QUICK RELEASE)  
TAB60121 (LOCKING)

\*Compact stands offer only tilt, no swivel.

**ENS. Better by Design.**

In the current climate, tablets can be a great tool to enable social distancing, but high-touch surfaces can also play host to high counts of potentially harmful micro-organisms. ENS has developed a market leading, automated disinfecting solution using UV-C light. Our UV-Clean option can be added to your tablet stand solution to ensure the surface is free from bacteria and viruses such as Coronavirus.

Countertop stands can be mounted to the counter with either a high bond adhesive pad (included) or with screws.
