# WorkForce DS-570W

## The wireless sheetfed document scanning choice, revolutionising workflows with smart features for capturing a wide range of documents.

With powerful media handling and innovative smart features to ensure a high level of data integrity, the wireless WorkForce DS-570W is geared towards highly-efficient and simple integration into an organisation's workflow. A 50-page ADF, fast scan speeds of up to 35ppm/70ipm, along with Wi-Fi, NFC and USB 3.0 connectivity, enable you to rapidly connect, capture, edit, store and share business documents.

## Intelligent features improve efficiency, accuracy and data reliability

With an industry-first slow mode<sup>1</sup> for scanning crumpled or fragile documents, the ability to scan challenging media has never been easier. The Active Separation Roller System prevents tedious document double feeds and the Double Feed Detection Skip (DFDS) means you can scan difficult media like envelopes or documents with post-it notes. Auto Scan Mode enables the processing of a vast number of documents as one file.

## Highly versatile

Single-pass double-sided scanning ensures rapid document processing, while it's possible to scan a versatile array of media such as paper as thin as 27gsm, or thick card at 413gsm. The instantly-recognised A3 carrier sheet automatically stitches larger documents back together digitally.

## Flexible connectivity

Scan documents easily to mobile, tablet and Wi-Fi-enabled work stations with its wireless capability. Built-in NFC enables instant Wi-Fi connectivity. It has high-speed USB 3.0 with TWAIN and WIA drivers for enhanced compatibility with Document Management Systems.

## Image enhancement and document management software

Epson Scan 2.0 software makes it easy to edit images with features such as deskew and auto rotate, while Document Capture Pro<sup>3</sup> is the easy to use solution for capturing and storing electronic documents at the touch of a button.

## DATASHEET / BROCHURE

## **KEY FEATURES**

- Wireless scanning Scan documents easily to mobile, tablet and Wi-Fi-enabled work stations
- An industry first with Slow Mode<sup>1</sup> Scan crumpled, long or fragile documents without increasing file sizes
- Active Separation Roller System Prevents tedious double feeds ensuring every piece of paper gets scanned
- Auto Scan Mode Quickly process physical documents in manageable amounts.
- Optional Network Interface Easy sharing between users with push scan and pre-defined job profiles
