Samsung Galaxy A50

The perfect all-rounder.

Do more, faster. The Galaxy A50 is made for multi-tasking. Its super-fast Exynos 9610 octa-core processor and innovative multi-window functionality lets your employees run several apps at the same time. So, they can edit documents while replying to emails, or reviewing that important presentation. It's multitasking made simple.

Infinity Display.

Get more done on-the-go. If your employees are updating documents in the field, or reviewing a presentation while travelling to a meeting, they'll need to be able to focus on every little detail. The Galaxy A50 has them covered. The 6.4" Infinity-U Display delivers a stunning, immersive experience, with sharp colours and vivid contrast. So, users can see exactly what they're working on—helping them stay productive, wherever they are.

Memory.

Keep essential files to hand, wherever they're needed. Boasting a generous 128GB of built-in storage—with the option to add an extra 512GB*—your employees will have plenty of space for documents, photos, presentations or any files they need to stay productive.

Camera.

Capture every detail with confidence. The Galaxy A50 boasts four high-quality cameras (25MP, 5MP and 8MP on the back and 25MP on the front) which help your employees take the perfect photos for work, in any conditions. So, they can take pictures to capture notes in meetings, record the latest progress on a project or snap images to liven up a presentation. With high-resolution and ultra-wide angle lenses, plus low-light sensors, they'll get accurate, pin-sharp images—even when it's dark.

Processor.

Work quickly and efficiently, with a super-fast phone. The Galaxy A50 has a powerful Exynos 9610 octa-core processor and 4GB RAM, which lets your employees switch between apps seamlessly. So, they can check diaries, read emails and update documents easily—without waiting for apps to open.

Samsung Knox.

The Galaxy A50 is protected by Samsung Knox, our defence-grade security platform built from the chip up. No matter where your employees go or what they do, they can be sure your business' data stays secure with superior protection that's easy to manage.
