Galaxy S23 | S23+ | S23 Ultra

Share the epic

Today, work is all about empowering people to reach their full potential, on their terms. The devices they use must be flexible, offering a truly epic experience wherever they work.

The Galaxy S23 Series is packed with all the tools, applications, security and support you need to thrive in this evolving working world.

Built specifically for business, the Galaxy S23 Enterprise Edition allows you to take work to the next level with an advanced mobile chipset, power-packed battery and Super Fast Charging. View your work at its best on a breath-taking display, and free your creativity with the embedded S Pen.

Get ready to experience and share the epic.

Go epic with confidence

With Enterprise Edition on the Galaxy S23 and Galaxy S23 Ultra, you have everything you need to secure, deploy and manage your mobile devices, even without an IT department. Up to five years of security and maintenance releases will help keep devices protected from threats. And with Extended Product Lifecycle¹, you can ensure consistency across your fleet.

Work anywhere knowing your sensitive data is protected by Samsung Knox, our defence-grade security platform, built from the chip up. The Secure Folder—accessible via ultrasonic fingerprint scanner—can be customised to provide a dedicated space for private files. And with a smart anti-tracking system embedded, you can enjoy greater privacy online.

Seamless performance in your hands

Now you can tackle the most intense work on-the-go. The new Qualcomm® Snapdragon® 8 Gen 2, a cutting-edge 4nm processor, delivers never-before-seen power, helping you make and share epic work from anywhere. Dedicated cooling allows you to push applications to their limits, while you power through for longer with the Samsung Galaxy S23 Ultra's 5,000mAh battery (typical)². If you do need a boost, 45W Super Fast Charging³ ensures you won't be caught out. And with 12GB of RAM and up to 512GB of storage, you'll have more than enough space to capture, download and store files. Share these files and enjoy crystal-clear video calls via 5G⁴ and Wi-Fi 6E connectivity.

Flexible working never looked so good

The Galaxy S23 Ultra's 6.8" display with Adaptive Vision Booster shows off your work bright and clear no matter the lighting around you. Samsung DeX⁵ allows you to connect your device to a compatible monitor or TV for a PC-like experience.

When you're out and about, you'll go with confidence knowing the Galaxy S23 Ultra is the most durable Galaxy yet. With Corning® Gorilla® Glass Victus®², front and back, and an Armour Aluminium frame, it's incredibly resistant. And with an impressive 200 MP main camera with 10x optical zoom, it's never been easier to get closer to your work.

1. Devices will remain on sale for a defined period after first global market release. The defined period will differ according to each specific device. Subject to change without notice.
2. Typical value tested under third-party laboratory condition. Rated minimum capacity is 4,855mAh. 3. 45W Travel Adapter sold separately. 4. 5G network connection and tariff required
5. DeX Cable sold separately
