

# A compact and powerful mobile printer

satoeurope.com

## **PV4 Mobile Printer.**

## Designed for powerful on-demand labelling across a diverse range of industries.

With the demand for cloud-enabled technology increasing year-on-year, businesses now seek IOT devices to deliver more than just the essentials in label printing. Next-generation solutions from SATO are designed to improve customer satisfaction, enhance productivity and provide a consistently accurate track and trace service for peace of mind.

That's why we are proud to introduce the PV4, a highperforming mobile printer engineered to meet the requirements of on-demand label printing environments.

### Logistics

#### Enhance efficiency across all aspects of the supply chain

Labels required through the supply chain including goods receipt, racks, and returned goods labels, can be printed efficiently by the PV4. It comes with major competitive emulations for seamless integration into existing workflows.

## Retail

#### Deliver efficient and simple on-demand printing to the shop floor where speed is key

The PV4 makes label printing on a busy shop floor simple and efficient in crucial applications such as ad-hoc price changes and discounts, stock taking, and goods return labelling. It also enables retail workers to connect wirelessly at the point of sale to synchronise label prices in real-time to boost pricing accuracy and customer satisfaction.

#### Product labelling for enhance traceability and efficiency

Built for tough industrial conditions, the PV4 mobile printer helps manufacturers gain clear visibility and traceability from raw materials to finished products, which is especially valuable in the event of a product defect. It has a durable polycarbonate body and rubber over-molded edges that absorb the force of an impact, a vital attribute in the manufacturing environment.

## Achieve all your on-demand printing needs with one complete dynamic solution

## **Simple Operation**

An intuitive user experience with a simple and easy to use screen and menu layout

## **Integrate and Connect**

- The SATO PV4 printer has exceptional compatibility. Third-party emulations including SLCS, BPL-Z<sup>™</sup> and BPL-C<sup>™</sup> ensure it is a simple process to replace existing printers without creating complex new workflows and enables simple integration for IT departments.
- In addition, connectivity options such as WiFi, Bluetooth 4.1, USB 2.0, NFC support, Android and **iOS** compatibility offer an enhanced user experience.

**Bluetooth** Wi Fi

Made for ∉iPhone | iPad | iPod

## **Compact and Robust Design**

The PV4 complies with IP54 standard and combines compact combines compact design with robust construction. With a 1.8m (5.9 feet) drop resistance, it has a durable polycarbonate body and rubber over-molded edges to absorb the force of impact if dropped.

This innovative design helps prevent downtime due to breakage in both the internal and external workplace environment.

## **Technical Tools**

- iOS SDK, Android SDK, Windows SDK (Windows 10), Linux SDK
- Supported Drivers: Windows Driver (Euro Plus/Seagul) Linux CUPS Driver, Mac CUPS Driver, OPOS Driver
- Utility Program (Unified Label Utility, Net Configuration Tool) Label designer software (Supported: Bartender UL), Virtual COM utility
- USB 2.0 FS type B C connector
- WLAN and WIFI connection
- Bluetooth enabled • iOS compatible

satoeurope.com

## **Optional** Accessories

The AC Adapter can be plugged into the printer and charged between uses. Remains operational when charging. Charges a single battery in 4 hours

1 and 4 Channel **Battery Charger** charges a single battery in 4 hours

Shoulder and Belt strap available for a hands-free solution

## **PV4 Technical Specification**

PRODUCT SPECIFICA	TION		PV4
Series name			PV-series
PRINTING SPECIFICA	TIONS		
Print Resolution			203dpi
Method			Direct Thermal
Media setting position			Center alignment
Printer Type			Standard:Continuous, Tear-off, Dispenser Optonal: Linerless Options: Linerless
D	Printer mode		Up to 127mm/sec (5 inches/sec)
Print speed	Temperature		Ambient temperature and battery status may reduce the speed.
Print darkness			Darkness level: 0 to 30 Default: 10
Printable area			Maximum Length 400 mm x Width 104 mm
	External dimensions	-	W 158 mm x D 186 mm x H 82 mm (excluding protrusion)
	Height with cover op	ben	W 158 mm x D 225 mm x H 127.3 mm (excluding protrusion)
Size/Weight	Weight		1,090g (including battery, excluding media)
	Package dimensions		W 297 mm x L 228 mm x H 91 mm
	Package weight		1.74 kg
Options			Smart Battery (spare) Single battery cradle Quad battery cradle Shoulder strap
