

Economy wax

Economy flat head wax

This economy grade wax ribbon has the ability to perform extremely well on both plain and coated papers and board. This economy wax is recommended for applications where price is the main factor. It offers a black, crisp and bold print making it an ideal product for standard printing applications that require a low level of durability to the printed image. The low level of printhead energy required to transfer the ink makes this economy wax a drop-in replacement product for other waxes available in the market and will offer a good performance on all types of at head technology printers. With print performance at speeds of up to 10" per second, at low printhead energy, this economy wax maintains excellent quality on low cost substrates. This wax also has the additional advantage of being ISEGA approved for use when the printed image comes into contact with non-fatty foodstuffs.

RECOMMENDED SUBSTRATES

Vellum, uncoated, matt coated, semi-gloss, tag board

PERFORMANCE CHARACTERISTICS

- Ideal for coated and uncoated papers
- Excellent print quality at high speeds (up to 10 IPS)
- Excellent print denition for clean, durable and dense barcodes
- Drop-in product to competitors wax ribbons
- Very low printhead energy requirements
- ISEGA certification
- Available from stock for all popular printers
- Very competitively priced

RIBBON SPECIFICATIONS

BASE FILM CARRIER	4.5 Micron Polyester
TOTAL RIBBON THICKNESS	7.3 Microns +/- 0.02
INK TYPE	Wax (At head technology)
COLOUR	Black
INK MELTING POINT	65°C
DENSITY	1.9

RIBBON STORAGE CONDITIONS

TEMPERATURE	5°C to 35°C (41F to 95F)
HUMIDITY	10% to 85% relative humidity
LIGHT	Avoid direct sunlight

CERTIFICATIONS AND APPROVALS

ISO 9001:2015 & ISO 14001:2015	All ribbons have been manufactured to these international quality standard
RoHs/WEEE	EC directives 2012/19/EU and 2011/65/EU, compliance to the limitation of dangerous substances in electrical and electronics equipment
HEAVY METALS	94/62/EC & 2011/65/EU
TSCA/CP 65	The ribbon does not contain any of the substances on this list
AMES TEST	The ribbon is not mutagenic, does not cause DNA modications
EC DIRECTIVES	1999/45/EC and 2001/59/EC. This ribbon does not contain any substance classified as dangerous for health
FOOD CONTACT	1935/2004/EC
REACH/SVHC	Does not contain any of the SVHCs listed - 1907 / 2006/EC
DISPOSAL	To be disposed of as mixed industrial waste
