MAXIMUM VERSATILITY. EXTREME MOBILITY.

BOBCAT

MAXIMUM VERSATILITY. EXTREME MOBILITY.

LIGHTWEIGHT MOBILITY THAT WORKS WHERE YOU DO

Don't be deceived by the thin frame and sleek design of the Xplore Bobcat Fully Rugged Tablet PC. At a mere 2.4 lbs (1.09 kg), this tough-as-nails mobile computing platform will go anywhere you need, do any job you need, embrace the challenges of the most rugged environments – and impress every time. It's perfect for handheld and in-vehicle applications alike, and it boasts the flexibility to meet your exact organizational needs. Your perfect co-worker.

POWER EASILY THROUGH YOUR MOBILE WORKDAY

As one of the most fully-featured Windows® tablets in its class, the Bobcat consistently proves its worth at the worksite and in the boardroom. Powered by an Intel® Quad Core 1.9 GHz processor, the Bobcat offers a full suite of enterprise tools for your critical applications. The Bobcat has a comprehensive set of standard I/O features, a 1D/2D barcode scanner option, up to a 20-hour hot swappable battery option, and multiple transport options for easy, all-day access to your most vital information.

NOTHING CAN HOLD YOU BACK FROM DOING YOUR BEST JOB

The Bobcat breaks down the typical mobility barriers with ease so that you can complete any task, anywhere. Featuring a vibrant 10.1" outdoor viewable display, the Bobcat gives you complete visibility of the big picture and the smallest details – whether under dim light or where the sun is shining bright. A multi-modal communications suite gives you a strong signal both inside and outside, and a 5 ft (1.52 m) drop rating and high vibration resistance means you can climb high on a bucket truck or fly through the day on a forklift without the risk of downtime.

ULTRA MOBILE

Only 2.4lbs (1.09 kg)

LIVE (AND WORK) IN THE MOMENT

Don't let long days fade your memory – or your data. The Bobcat is here to help you chronicle each workday experience instantaneously, in any environment. With a 10-Finger Multi-Touch Interface and Glove Touch capability, you can accurately document every last inspection, repair, or shipment detail with the touch of a finger. Plus, since pictures are worth a thousand words, a 5MP rear camera, 720p HD webcam and xCapture Pro Camera software come standard on all Bobcat fully rugged tablets.

PROTECT YOUR EXPERTS WITH OUR EXPERT PROTECTION

Refined by over a decade of real world customer feedback and experience in the rugged space, the Bobcat remains one of the most reliable rugged tablets in its class today. This MIL-STD-810G and IP65 rated tablet PC is engineered to protect critical data under the most demanding conditions. It includes integrated options for Barcode Scanning, Common Access Smart Card (CAC), NFC, and Fingerprint authentication for those seeking additional security for data and devices. The Bobcat's smooth integration of legacy software supports a long, valuable service life in the field.

CARRYING SOLUTIONS

- Rotating Hand Strap, Top Handle with Pen & Tether, Shoulder Strap

Though each rugged computer manufacturer may use a different set of parameters for their MIL-STD-810G specification testing procedures, Xplore always performs multiple MIL-STD-810G tests at various impact levels during the design and engineering phases. This allows us to clearly determine the rugged thresholds and durability of each of our class-leading tablets so we can always identify the best use case scenarios for our customers.

IT'S ALL IN A DAY'S WORK

When your job keeps you on your feet, you need a durable mobile computer that will perform wherever you need it to go. The Xplore Bobcat is a ruggedized tablet that delivers every time in the boardroom and beyond:

Quality Assurance	Inspections	Inventory Management
Safety Audits and Compliance Reporting	Asset Monitoring and Control	Maintenance and Repair Scheduling and Completion
Claims Processing	Engineering/Construction	Project Management
Incident Reporting	Dispatch and Routing (GPS)	Mapping/GIS Asset Location
Investigations	Situational Awareness	Evidence Documentation
Ticketing & eCitations	Electronic Patient Care Reporting (ePCR)/Electronic Health Records (EHR)	Emergency Response Planning and Management
