

# DATACARD CERTIFIED SUPPLIES

## SP55K SUPPLIES

## FOR THE DATACARD® SP55K KIOSK CARD PRINTER

### ENSURE PEAK PERFORMANCE

Designed exclusively for the SP55k kiosk card printer, our ribbons, printheads and cleaning supplies can help you achieve the best image quality, most reliable printer performance and lowest possible cost-per-card.

### LEVERAGE ADVANCED, SYSTEM-MATCHED SUPPLIES

The SP55k kiosk card printer features Datacard® proprietary ribbons, which are designed specifically for this kiosk card printer. When the printer recognizes that a Datacard® ribbon is installed, all enhanced product features are enabled and successful card printing can begin. The printer will only print color images when Datacard® proprietary supplies are installed. Datacard is your exclusive source for proprietary ribbons for the SP55k card printer.

Datacard® Certified Supplies featuring Intelligent Supplies Technology™ leverage our patented radio frequency (RF) technology to automate color and image density adjustment, ribbon usage tracking, ribbon conservation and a suite of value-add features. Datacard® color panel ribbons also use exclusive Advanced Imaging Technology™ to deliver crisp, vivid photos, graphics and text for all your kiosk card printing needs.

### REDUCE COSTS AND MAXIMIZE YIELDS WITH RIBBON SAVER

The SP55k kiosk card printer enables the exclusive ribbon saver feature on Datacard® Certified Supplies featuring Intelligent Supplies Technology™. When printing with Datacard monochrome ribbons, the printer advances the ribbon just enough to print an image, rather than the traditional full card width advancement. This feature can potentially double or even triple the standard yield of your Datacard monochrome ribbons. Datacard color panel ribbons also take advantage of this feature, saving one complete panel set during each printer initialization.

### ENJOY THE CONVENIENCE OF ALL-IN-ONE SUPPLY KITS

Datacard Group understands that delivering attractive cards requires high-quality ribbons and a durable, well-maintained printer. One of the easiest ways to help keep your printer properly maintained is to perform regular cleaning cycles. All ribbon kits designed for use with the SP55k kiosk card printer include an isopropanol cleaning card and adhesive cleaning sleeve, so you always have cleaning supplies on hand every time you replace a ribbon. Additional cleaning supplies and accessories are also available separately for more frequent cleanings.

### YOUR BEST CHOICE FOR SUPPLIES

Protect your investment in Datacard solutions by using only Datacard Certified Supplies. At Datacard Group, we engineer superior performance and reliability into every system-matched supply item we offer. For you, that means smooth printing, brilliant image quality, high security and exceptional performance. With sales and service in more than 120 countries, Datacard Group is your direct connection to superior supplies and on-demand support when and where you need them. For exceptional quality and service, trust Datacard Group — your best choice for supplies. To ensure you are using Datacard® Certified Supplies, look for our distinctive *blue* cores with platinum flecks®.
