# Galaxy A54 5G | A34 5G Enterprise Edition

## Astounding, Affordable, Awesome.

The Samsung Galaxy A Series offers you greater affordability without sacrificing the essential features you expect from a fast, powerful, innovative work phone.

Show your workforce you value them by equipping them with superior devices that keep them connected and productive wherever they choose to work. With lots of great business tools packed into an attractive design, your teams can work more fluidly—at home, in the office or on the go—in a way that best suits them. And they can feel confident they have the technology they need to be at their best.

A Series devices come with all the defence-grade, multi-layered security you'd expect in a Samsung business phone. So, your team can feel confident their devices are protected from threats. And you can rest assured all your sensitive data is kept completely safe.

A Series phones also come equipped with innovative tools to help your teams work smarter. They can capture professional images and video with the Galaxy A54's impressive 50 MP camera, then share, edit and sync them using Quick Share and Gallery Sync with OneDrive. Your teams can then access this content—as well as all their essential work files—from any Galaxy device, wherever they are.

### Simple mobile management with Enterprise Edition

Take care of everything you need to secure, deploy and manage your mobile devices, even if you don't have a dedicated IT department. Available on the Samsung Galaxy A54 5G and A34 5G, Enterprise Edition makes sure all employees have secure mobile technology, updated with the latest apps and software.

Your IT teams can control mass rollouts of security updates to users' devices at a time that's most convenient for your business, after they've carried out testing. You can keep your devices protected from mobile threats with up to 5 years' Security and Maintenance releases. And with Extended Product Lifecycle<sup>1</sup>, you can ensure consistency across your fleet of devices. Enterprise Edition also features a QuickStart build service for those who want to take advantage of Knox Suite features. And thanks to 3 years of enhanced support, including doorstep repair, you can be confident your A Series devices will be with you for the long-run.

### Galaxy A54 5G

1. Devices will remain on sale for a defined period of time after first global market release. The defined period will differ according to each specific device. Subject to change without notice.

**Galaxy A34 5G**

**Powered up for success**

Work productively anywhere with the Samsung Galaxy A54 5G and A34 5G. The A54 5G's Exynos 1380 processor and the A34 5G's Dimensity 1080 processor give you plenty of power to update work and keep on top of projects on the move. You can even run heavy applications or review large CAD files and technical drawings smoothly and seamlessly.

The A54 5G and A34 5G also feature a new security dashboard that intuitively shows your overall security status. It lets you hide sensitive information when sharing photos. Plus, with 5 years of security updates ensuring your A Series devices always run the latest Android OS, you can rest assured that your phone and its data remain protected.

**Brilliant battery**

Get more done with a phone that keeps up with you throughout the busiest days. With the A54 5G and A34 5G, you get a powerful 5,000 mAh (typical) battery<sup>2</sup>, which gives you more than 2 days of power on a single charge<sup>3</sup>. So, you can easily get through a full day of meetings, update work on the go and keep in touch with your team, wherever you are. And, when you do run a little low, with 25W Super Fast Charging<sup>4</sup> you can just carry on with your day.
