

Samsung Galaxy Tab Active4 Pro

The tough tablet designed for tough work

The Galaxy Tab Active4 Pro is built to withstand even the most demanding work. It's a sleek, premium productivity powerhouse that frontline workers can really count on.

It's built strong, with military-grade durability and IP68 water and dust resistance.¹ The compatible S Pen is safe from splashes, too. On top of that, you can use the touch screen even while wearing gloves.² So, whether you're treating patients in a busy hospital or working on a dusty construction site, you can work with total confidence.

When you need to act fast, you can use the physical Active Key to launch any chosen app instantly. It's also mPOS-ready, so you can take payments from customers on the go.

It's tough inside too. Protected by Samsung Knox and built-in biometric security, it keeps data in the

right hands. It also works harder for longer, thanks to its next-gen mobile processor and exceptional battery life. When power does run low, you can swap out the battery for a spare³—or even run it without a battery at all, when plugged into a vehicle or kiosk.

A tablet that's been tested against even the harshest of conditions.

Work in even the harshest environments, without worrying about your device getting damaged. The Tab Active4 Pro is IP68¹ and MIL-STD 810H compliant, meaning it can withstand splashes, dust, drops⁴ and even extreme temperatures. The screen itself is protected by the resilient Corning® Gorilla® Glass 5, and the included S Pen is IP68 compliant as well, so wet conditions won't slow you down.

No matter if you're sketching plans in the rain or accessing data from the top of a telephone tower, the Tab Active4 Pro is tough enough to handle the pressure.

Not just a tablet—a portable productivity platform.

For when one screen isn't enough, work from two—with Wireless DeX mode, you can enjoy a PC-like experience. Display content from your device on a secondary screen, while monitoring other applications on the tablet itself.

Included with the Galaxy Tab Active4 Pro is the low-latency, IP68-certified S Pen.

You and your teams gain more control to edit, note, annotate and sketch anywhere, with a truly 'pen on paper' feel.

The Knox Capture⁵ scanning application turns the device into a clever barcode scanner, which can scan multiple barcodes at once. It speeds up tasks and eliminates the need for additional handheld scanners.

No matter the situation, rely on better connections.

Stay in touch with your team, even when the going gets tough. The Tab Active4 Pro provides both Wi-Fi 6 and 5G mobile connectivity you can really rely on, meaning your support is never hard to reach. Whether you're in a bustling store or deep within a warehouse, you can expect reliable connectivity.

With Wi-Fi 6, you benefit from seamless roaming between access points and high-performance, even if many devices are connected to the network. And with the low latency and reliability of 5G, you could benefit from real-time data sharing almost anywhere you go. The Tab Active4 Pro enables you to work with confidence, no matter where work takes you.

Manage, maintain and secure with Enterprise Edition.

Make managing your fleet easier with Enterprise Edition. It's a complete package of services, including Knox Suite security⁶ with Knox Asset Intelligence, designed to protect your mobile devices and make them easier to monitor and maintain. You get three years' enhanced support and access to our Business Service Centre, and up to five years of security and maintenance updates⁷—plus three Android generation updates—with your Tab Active4 Pro. Enterprise Edition also includes next-business-day doorstep exchange in the rare case of functional failures. And with two years' extended product lifecycle, you can ensure consistency across your devices. So, wherever frontline employees are working, they can remain productive and secure.

Galaxy Tab Active4 Pro Technical Specifications

Design:

- 242.9 x 170.2 x 10.2mm
- 10.1" TFT LCD display
- 674g (without case)
- 3.5mm headphone jack
- Customisable Active key

Performance:

- Qualcomm Snapdragon 778G
- 6GB RAM
- 128GB Storage
- MicroSD expansion up to 1TB

Battery:

- 7,600 mAh
- Replaceable
- No battery mode
- 15W Fast Charge
- POGO Fast Charge

Protection:

- Gorilla® Glass 5
- IP68 rated¹
- MIL-STD-810H certified
- Drop tested to 1.2m with included case

In The Box:

- S Pen (IP68 rated)
- 15W travel adaptor
- Protective cover
- USB C-C cable
- SIM ejection tool

Connectivity:

- 5G
- Wi-Fi 6, 2.4+5GHz
- 1 x Nano SIM slot
- NFC & mPOS ready
- RTLS support, GPS (L1 + L5)

Camera:

- Rear: 13MP, F1.9
- Front: 8MP, F2.0
- Rear flash

Software & Service:

- Android 12 (at launch)
- 1 year Knox Suite included
- 3 years Enhanced Support
- 5 years Security Releases⁷

Security:

- Face recognition
- Fingerprint sensor (front)
- Secured by Knox

Other:

- Samsung DeX
- Secure Folder
